

# **Agile Methods**

**Story of Life**

What should be in the Backlog that will ....

*u*

How can I implement this Backlog so that ....

- How do we live our life or does the life lives us?
- What is living after all?
- Do we have a plan?
- Is our ladder leaning against the right wall?
- Are we using correct map to navigate our life or in other words are we using the map we believe we use?
- Are we in control?
- Should we be in control?

# A Persona Based Approach in Life Management

- What are your roles and who are your customers in different roles in life?
  - Spouse
  - Parent
  - Son/daughter
  - Brother/sister
  - Friend
  - Employee
  - Professional
  - Learner
  - Citizen
  - Member of the community
  - Religious follower

# Building Backlogs for Different Personas

# Consuming the Backlog
